

3D TEAMBUILDING

Your 3D Teambuilding !

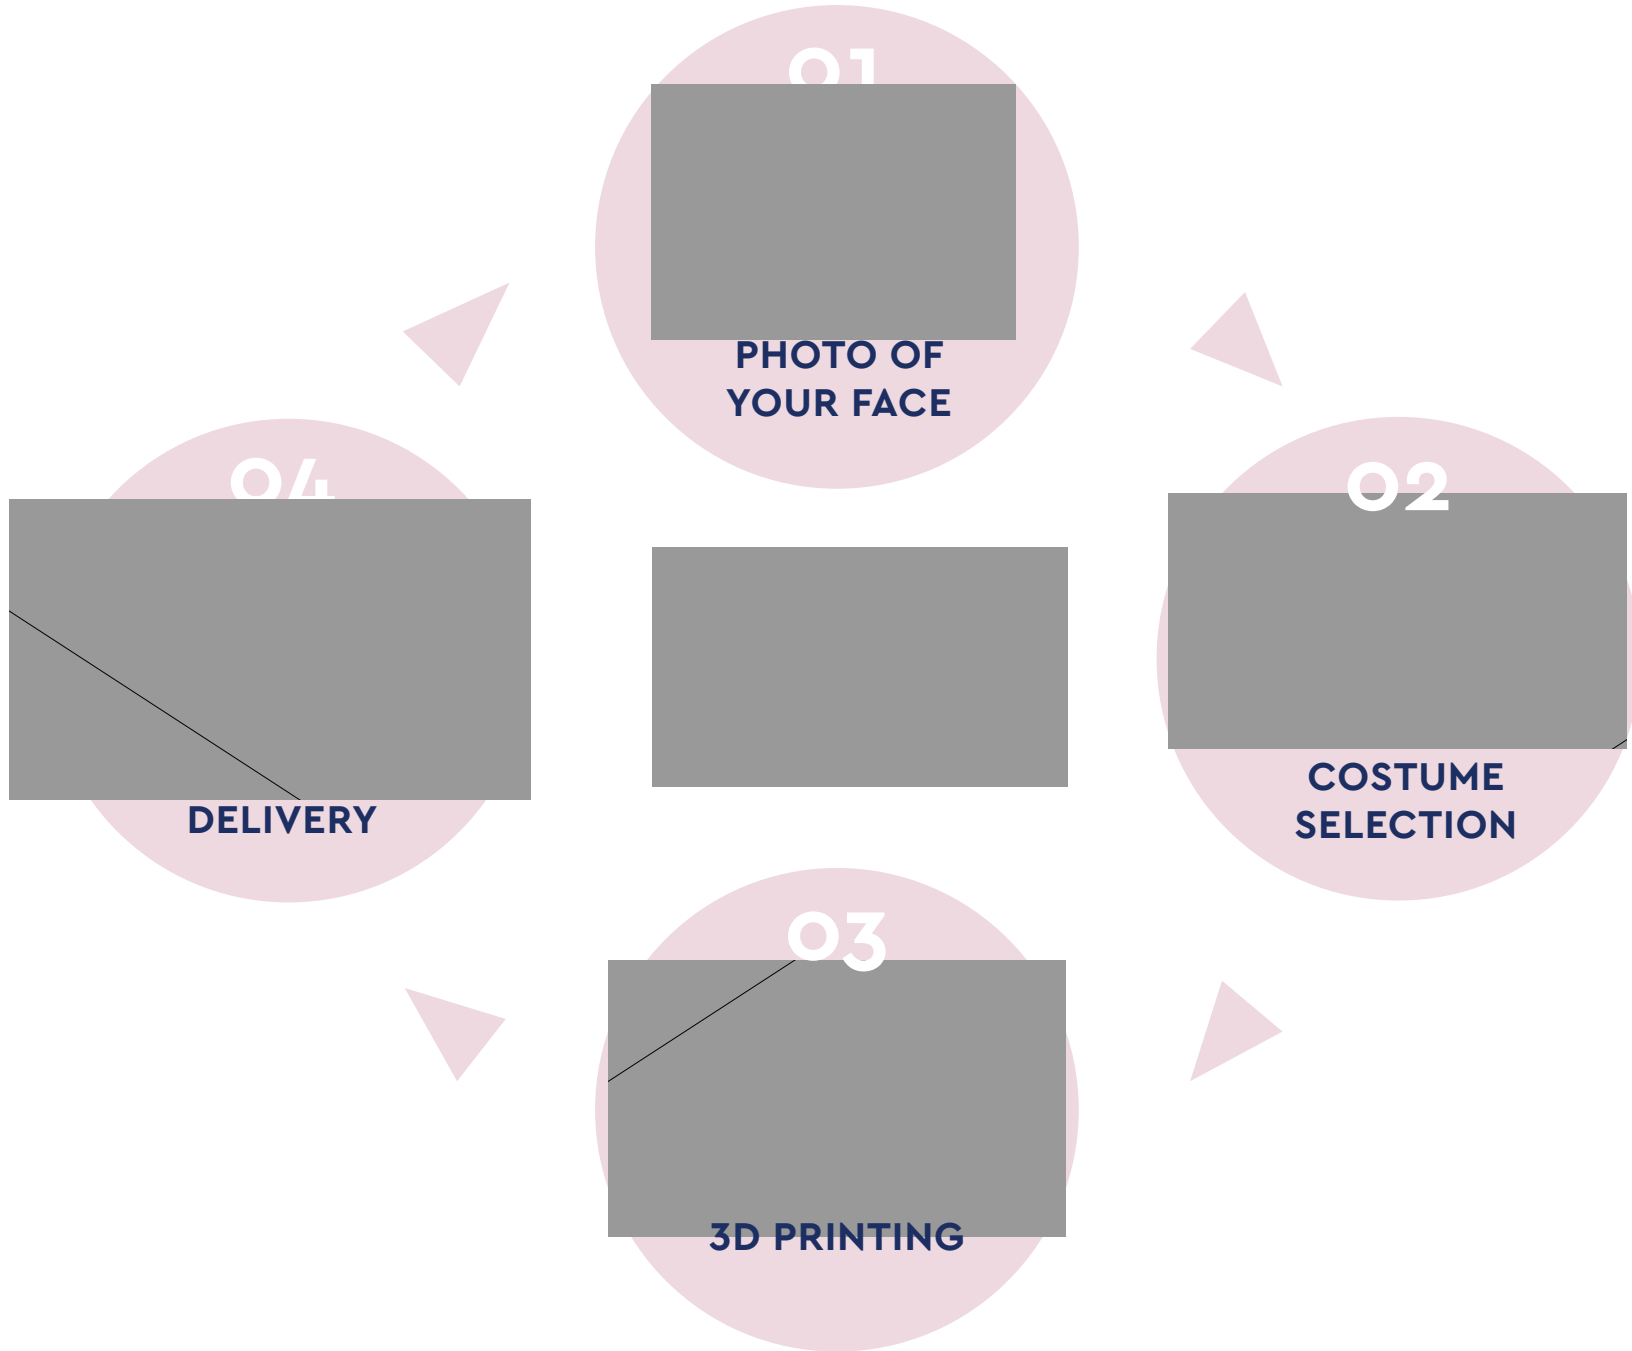

Encourage team bonding during an original and atypical event: 3D Teambuilding!
Both fun and technological, this animation allows your team to dive into the 3D printing universe and receive a custom-made gift at their image and your company's.
Shooting and personalization are made within two minutes per person.
It is always quite euphoric to dream yourself through numerous characters, it is a friendly and welcome moment.

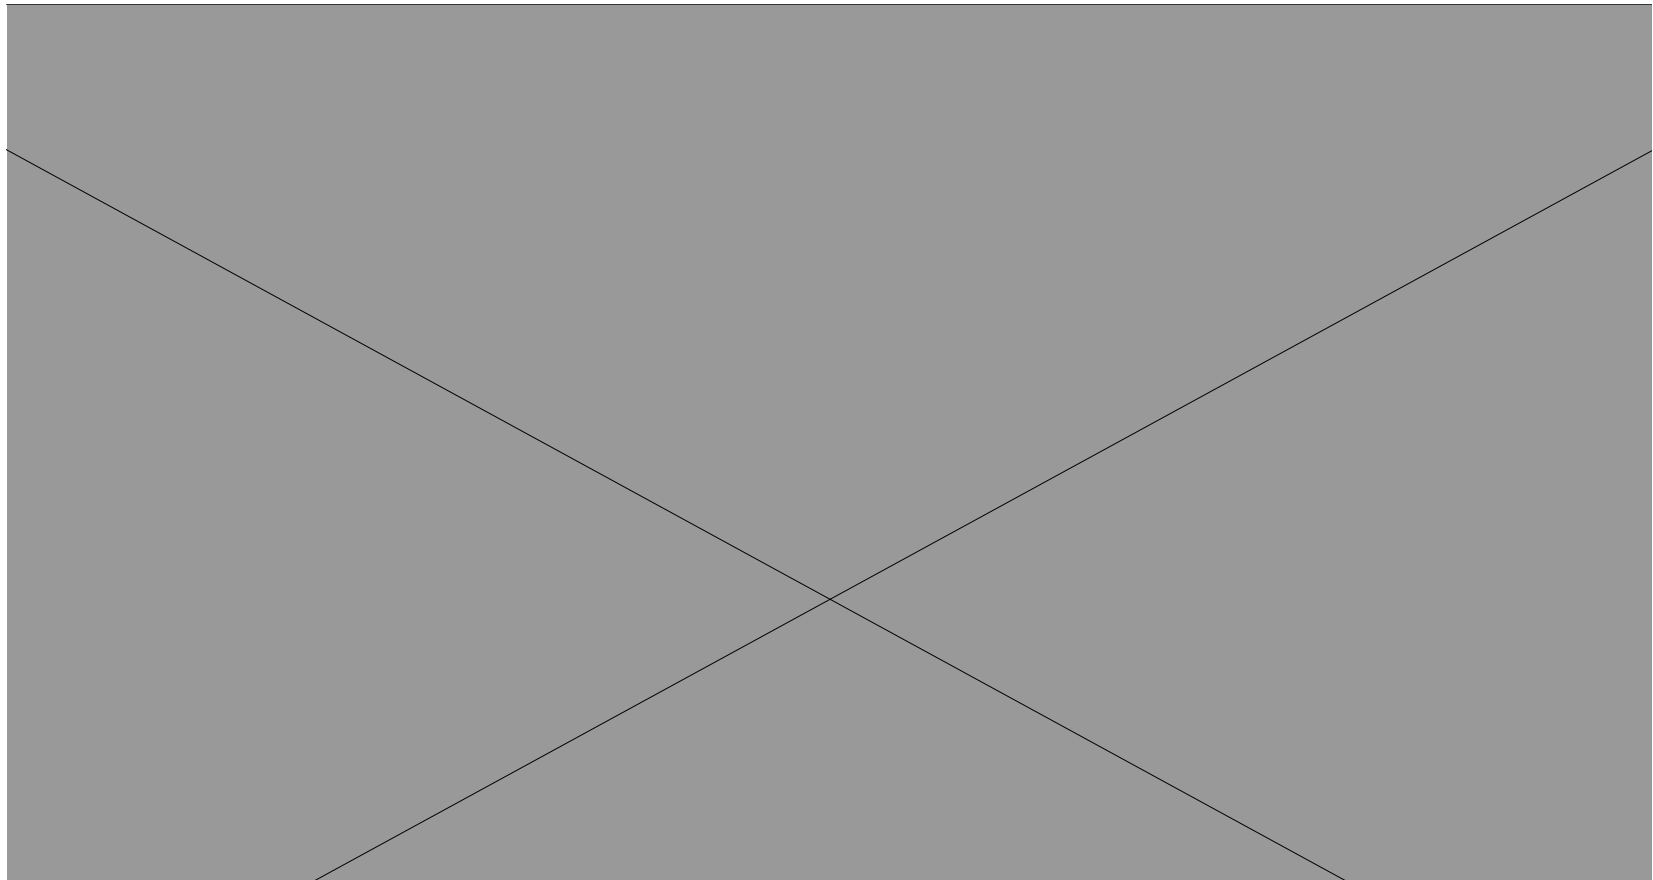

EXPLANATION

3

The 3D scan looks like a photobooth. On the inside, there are nine lenses that shoot your face instantly. The machine goes along with a touchscreen and a keypad to continue the personalization of your figurine. We handle everything!

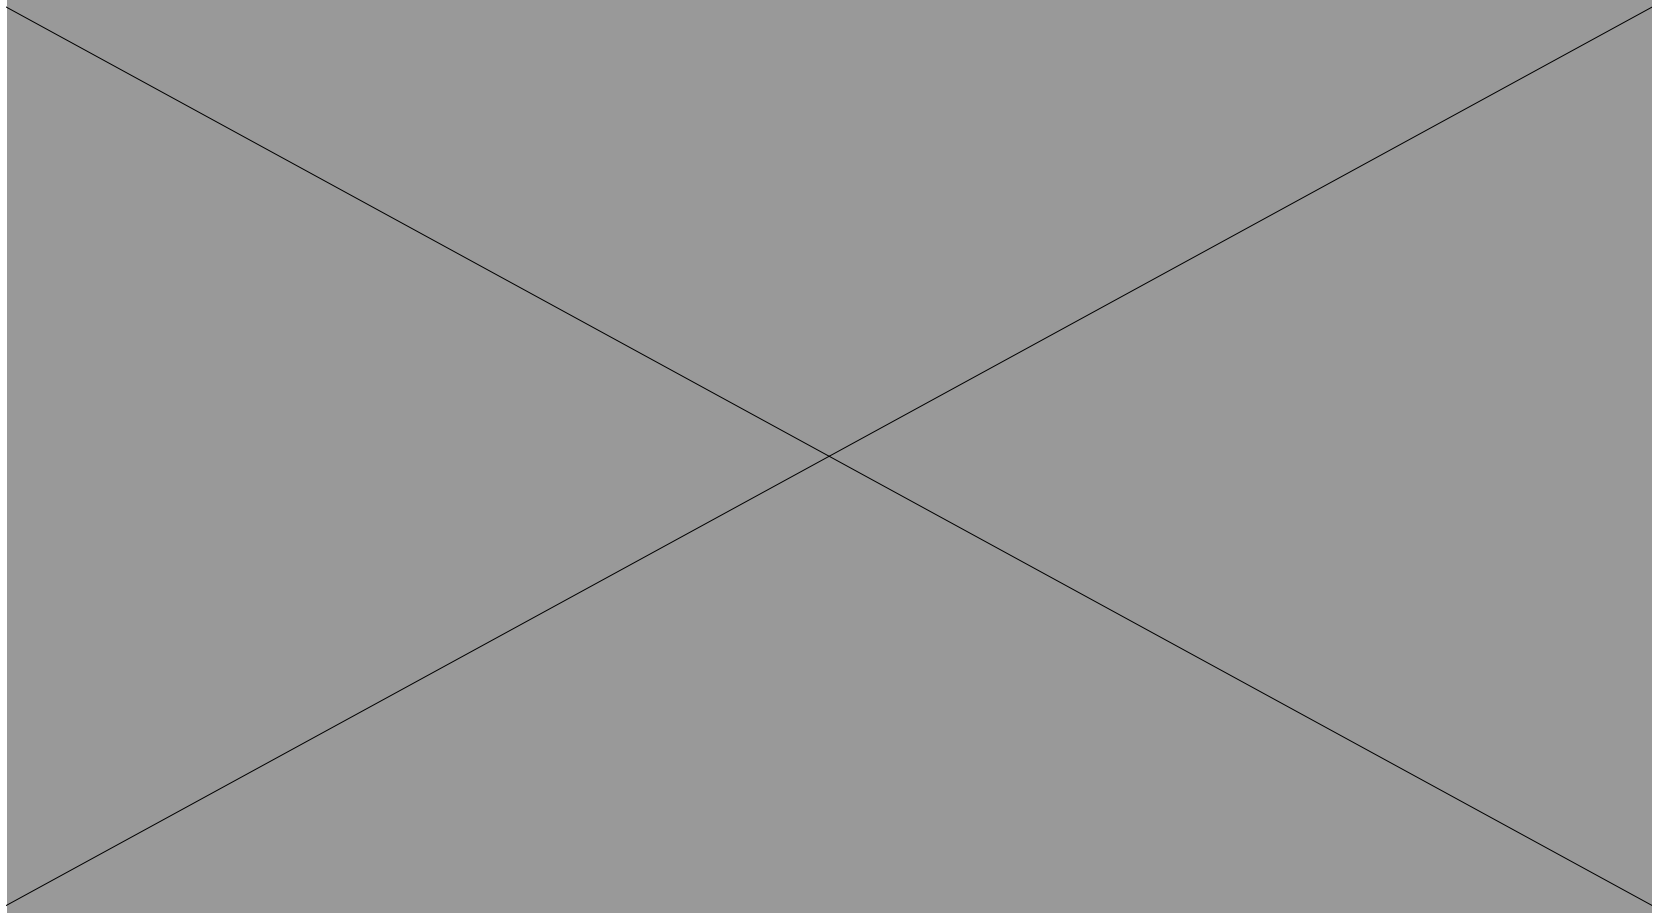

You can choose among a catalogue of 300 figurines on varied themes or create your custom-made costume with our team.

Once the animation is over, you will receive all the statuettes within two weeks. And for the most impatient ones, we print a photo of your avatar on D Day!

COSTUME CHOICE

5

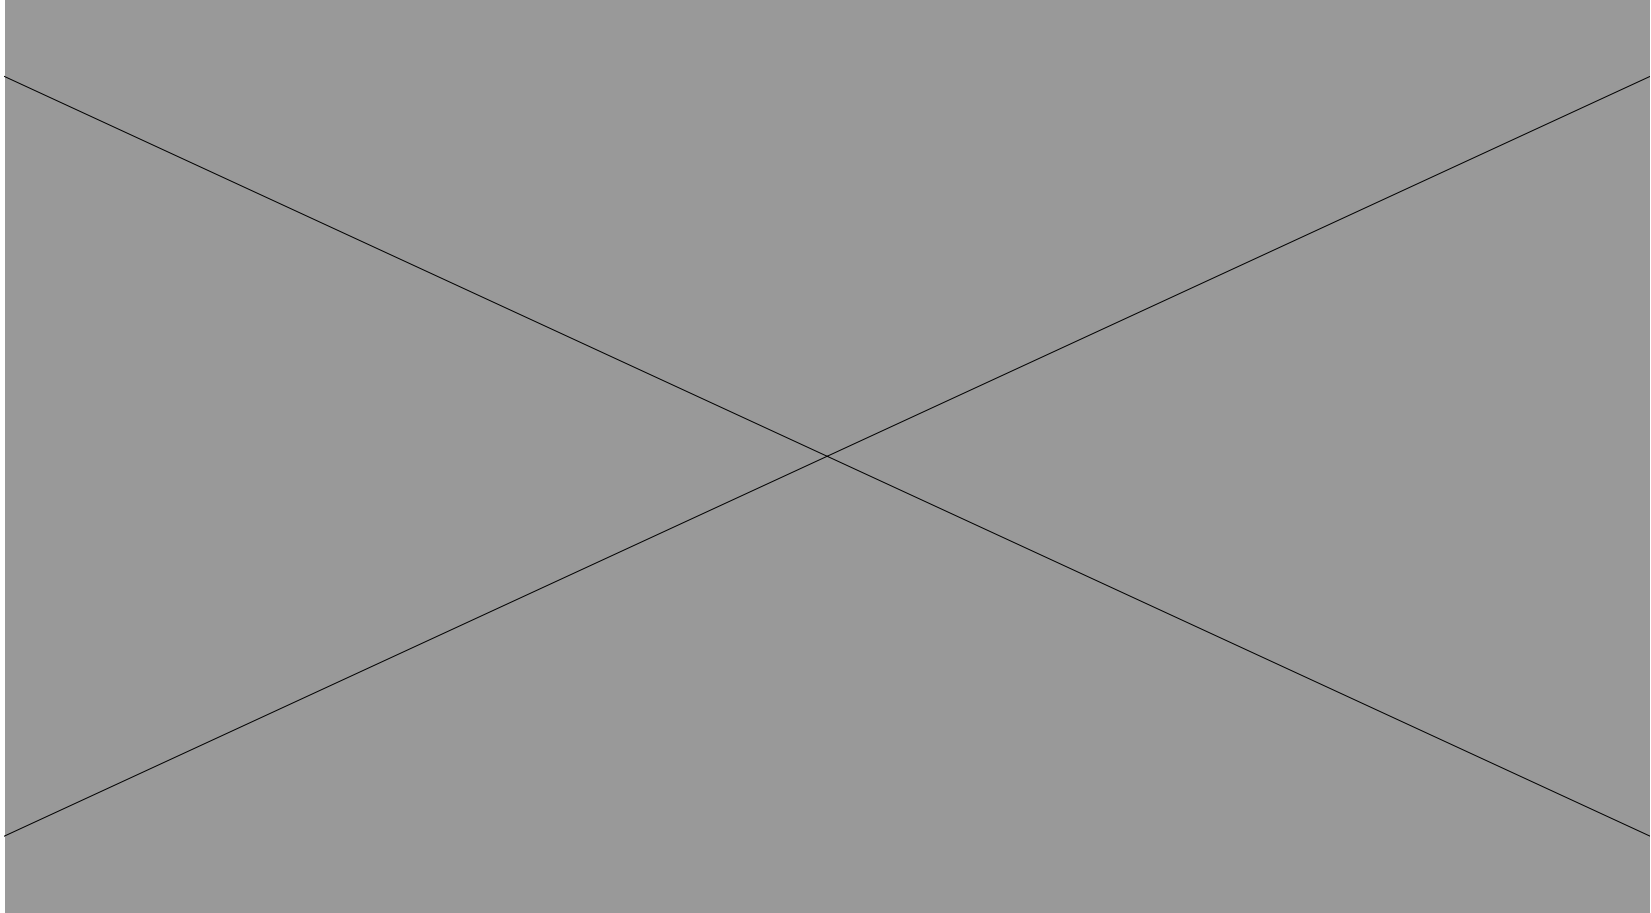

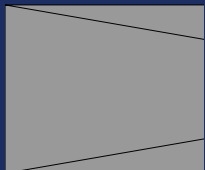

All our figurines are 3D printed using mineral powder, a material composed of 97% of Gypsum equivalent to plaster and so recyclable.
Each avatar is delivered in a box and we can handle individual expeditions.
